**TECHNOLOGY – ACCEPTABLE USE**

**6.335**

**POLICY**

The use of District technology structures<sup>1</sup> accessed from within SD54 facilities or from outside networks by all students and staff, shall be governed by administrative *Acceptable Use Regulations* that define the parameters of acceptable use of the following:

- ⇒ Physical resources (computers, peripherals, etc)
- ⇒ Software
- ⇒ On-line learning resources
- ⇒ Internet usage

Access to District technology structures is a privilege, not a right, and may be withdrawn if employees or students do not comply with the *Acceptable Use Regulations*. Administrative regulations shall provide for progressive remedies in the event of misuse and/or non-compliance.

Every student, employee and other person having access to any District technology structures shall use such resources in a legal, ethical, responsible and professional manner. Any communications, publications and posting of information on any District network or the World Wide Web shall be consistent with the highest ethical and legal standards.

**VALUES**

In its consideration of this policy, the board has been guided by the values of *responsibility, fairness, and respect*.
